AIA 3 Man Playoff Mechanics:

The three umpire system will consist of **UIC** (Plate Umpire), **U1** (1st Base Umpire) and **U3** (3rd Base Umpire). **UIC** will be the umpire in chief and will have final responsibility on all crew matters, rule interpretations and any matters not covered by NFHS baseball rules. Crew Chiefs will be assigned by AIA for Post Season assignments.

The mechanics and rotations used will be outlined below and follow the CCA manual. These mechanics and rotations will be an addendum to the NFHS Umpires Manual, and are adopted by AIA for baseball playoffs.

**Overview:**

A) There will be two basic scenarios for each rotation; an umpire goes out on the play (revert back to Two Man mechanics) and when no umpire goes out on the play.

B) Wing umpires (U1 or U3 in position A or D) will go out on all trouble balls. Trouble balls will be converging fielders, ball challenging a wall, ball challenging a foul line, a potential catch made below the waist. All other catch no catch situations will not require an umpire to go out. **Essentially a “can of corn” does not require an umpire to go out.**

   a. Three man mechanics allow an umpire a longer period of time to read the play. Please make sure we Pause / READ / React properly. Umpires are encouraged to READ on the RUN.
   b. An umpire on the inside of the diamond **CAN go out on (cross the dirt infield) on any catch / no-catch.**

C) All umpires will visually check the status of the “calling umpire” as this will dictate your rotation. U1 should work inside until U3 has committed to coming inside (NOT going out for trouble) every time possible. Once U3 comes inside then U1 will work back outside. This is also the case when U1 is inside and could possibly go out from the middle, U3 has to be ready to come inside.

   * **THIS IS CRUCIAL TO DO EACH AND EVERY TIME!**

For example:

   a. No runners on base, fly ball hit to right field. U1 is the “calling” umpire; both UIC and U3 should visually check the status of U1 after reading the fly ball to his coverage area.
   b. No runners on base, fly ball hit to left field. U3 is the “calling” umpire; both UIC and U1 should visually check the status of U3 after reading the fly ball to his coverage area.

   **Checking the umpire’s status will dictate your rotation.**

**Basic Responsibilities:**

A) **Fair / Foul**- UIC has all responsibilities to the bag, and IF no umpire on the line, past the bag. An umpire on a foul line has the ball once past the bag.

B) **Catch / No Catch**-
   a. On the Infield- see addendum “Infield Catch”
b. In the Outfield- see addendum “Outfield Catch”

C) **Overthrows**- the UIC will have responsibility on all overthrows unless he has rotated to 3rd base. If that rotation has occurred then the U1 (now at the plate) will rule on all overthrows. **Please note that if we have reverted to two man, then the UIC has ALL overthrows.**

D) **Balks**- this is a general guide only;
   a. **UIC**- all pitchers not stopping, all pitchers not stepping to a base, not gaining ground, RHP & LHP closing shoulder prior to pick to base.
   b. **U1**- LHP not stopping, LHP not stepping to 1st base, LHP breaking the back edge of rubber, RHP & LHP breaking front knee prior to pick to base.
   c. **U3**- RHP not stopping, RHP not stepping to 3rd base, RHP breaking the back edge of the rubber, RHP & LHP breaking front knee prior to pick to base.

E) **Touch / No Touch, Obstruction**- the umpire who has the responsibility to make any out / safe call on any runner at any base ALSO has the responsibility of whether that runner touched the base, left early or was obstructed. **UIC has the lead runner’s touch / no touch at third base with multiple runners on base.**
   *This will serve to definitely outline responsibilities; however each umpire should try and gather as much information as possible so they may give help if asked.*

F) **Half Swing**- the UIC will utilize his partners for help on half swings. The UIC will always go U3 for left-handed batters and always to U1 for right-handed batters. The UIC will use his left hand to point and ask for help.

G) **Getting the Call right**- if an umpire chooses to get help from his partners on a play, the entire crew gets together. All 3 umpires will come together and discuss the play, rule interpretation etc.

**Rotations:**

**PLEASE NOTE:** for the following rotations that BR= batter runner, R1=runner starting at 1st base, R2= runner starting at 2nd base and R3 runner starting at 3rd base.

**No Runners on Base:**

Starting Positions: U1- A position, U3- D position

- **Batted Ball stays in the infield**
  UIC- clears the catcher and moves to the 1st base 45 foot line, straddling fair foul line.
  U1- moves into normal position for play at 1st base.
  U3 - moves towards 2nd base for potential play at 2nd Base.
  UIC- Runners Lane Interference, help with swipe tags, moving with baseball on any overthrow into foul territory and any play back at the plate.
  U1- Play at 1st base, Pulled foot.
  U3- Any play at 2nd or 3rd base.

- **Clean Base Hit to Outfield**
  UIC- will have any play on batter-runner at third base (triple). UIC will move toward the library. Takes all plays at 3rd base and stays on the outside. UIC will remain at 3rd base and release home plate responsibilities to U1
AZBOA 3 Man Playoff Mechanics

U1- has any play back into first base, Touch/ No Touch, Obstruction. Rotate to home plate once runner touches 2nd base (rotate home in foul territory). Have all plays at home plate.

U3- moves into position at 2nd base (inside or outside of 2nd base) and has 2nd base responsibilities.

-Trouble Ball to Rightfield (U1 goes out)

UIC- Clears catcher and moves out towards first base cutout for touch/no touch, obstruction and any play at 1st base. Once Batter Runner has advanced beyond 2nd base, UIC will move back to home plate for any play.

U1- goes out and stays out.

U3- moves towards 2nd base for any play and takes batter runner into 3rd base if play develops.

-Trouble Ball to Rightfield (U3 goes out)

UIC- Clears catcher and moves out towards direction of the batted ball, generally no further than dirt / grass line of plate area. Takes all plays at home plate. Observe action and gather information.

U1- Reads that U3 has gone out on trouble ball and moves inside to take all plays at 1st, 2nd, and 3rd base. May pivot or look over shoulder for touch /no touch and obstruction.

U3- goes out and stays out.

Runner at 1st Base Only (1st to 3rd rotation in effect):

Starting Positions: U1- short A position, U3 Deep B position for RH batters and Deep C for LH Batters (you have half swing responsibilities thus the difference in starting positions).

-Batted Ball stays on the infield, double play potential:

UIC- clears the catcher and moves initially towards 3rd base. UIC will stop and come set once the batted ball has been fielded by infielder. Observe pivot at 2nd base and with the throw to first base, work back to first base line extended for play at 1st base.

U1- moves into proper angle distance position for play at 1st base.

U3- takes play 2nd base, responsible for force play slide rule infraction. Will remain focused here even after the throw is released, watching for any late interference.

-Clean Base Hit to Outfield

UIC- rotates to 3rd base extended (Library) for play at 3rd base. Will take any play at 3rd base from the outside.

U1- observes touch / no touch, obstruction at first of Batter Runner. Release 1st base and rotate to home plate once R1 commits to 3rd base. A general guide is that you will advance towards home the same distance R1 has advanced to 3rd base. So if R1 simply touches and rounds 10 feet, you should be 10 feet closer to home plate.

U3- has all plays at 2nd base and at 1st base on BR if U1 has rotated home. Upon reading that UIC has rotated to 3rd base, you will move on the 1st base side of the infield. Once R1 has committed to 3rd base you will pick up responsibility for BR at 1st and 2nd base.

-Fly Ball to Outfield (U1) goes out.

UIC- starts rotation to 3rd base (takes play inside at 3rd if R1 advances) and retains home plate responsibility.

U1- goes out stays out.

U3- has all plays at 1st base, 2nd base. If batted ball is caught then U3 slides back to 1st base for play on retreating R1.

-Trouble Ball to Leftfield (U3) goes out from middle.

UIC- starts rotation to 3rd base (takes play inside at 3rd if R1 advances) and retains home plate responsibility.

U1- comes inside and has all plays at 1st & 2nd base. Takes 3rd base responsibilities if UIC calls the 2 man rotation off (no play at 3rd base).
U3- goes out and stays out.

**Please note with R1 only.** With 2 outs and Full count (3 balls / 2 strikes) our rotation is off. Plate Umpire will stay at the plate. We will reverse rotate with U1 taking BR into 2\textsuperscript{nd} base.
